The Class List Headache

Creating balanced, fair class lists is one of the most time-consuming and stressful tasks school leaders face each year. Hours, or even weeks, are lost juggling spreadsheets, last-minute changes, teacher requests, and parental concerns.

Without a clear system, the process often feels like guesswork, leaving staff frustrated and sometimes undermining confidence in the final outcomes.

It's a complex puzzle, balancing academic needs, behaviour, friendships, and student wellbeing, and it can easily overwhelm even the most experienced teams.
